OK, well I've made the jump to **BlogCFC 5.5.002**. Can I tell you that it is almost impossible to keep up with **Ray Camden**. The man is a fiend. I have no idea how he finds the time to manage his job, family, side work, and tons of open source projects. The guy is truly amazing. Thanks again, Ray, for everything you do for the CF Community.

As some of you can tell, I will have to look into a few changes now. I'm using the 'liquid' layout here, so some adjustments will be needed to handle the graphic at the top of the page. But that, my friend, is for another time.

I'm also going to incorporate a new 'about' pod that **Charlie Arehart** has sent to me. We've been going back and forth in email on some common interest stuff, and he pointed out to me that I don't have any sort of 'identifier' on my blog. This new pod will be great. Thanks a lot Charlie!
