Ben Smith, of Panzer Solutions, sent me an email stating that eBay is looking for a ColdFusion developer to work on their Marketing Resource Management solution (MARS). Here are the particulars:

Job Title : ColdFusion Developer Location : San Jose, CA Duration : 3+ months with extensions Required Skills: Excellent working knowledge of ColdFusion

Job Description: The ColdFusion developer will augment eBay's Marketing Resource Management solution (MARS), built in ColdFusion, based on pre-defined and prioritized business and technical requirements.

If you're interested, click on his name (at the top of this post) and send him the latest version of your resume.
